SENATE TARIFF BILL.

Sweeping Changes in the Measure As It Passed the House.

GENERAL INCREASE IN THE BILL.

There Are Over Four Hundred Amendments, and in the Schedules the Increases Are Very Marked—The Increase in Sugar—A Few of the Changes.

WASHINGTON, May 8.—During the executive session yesterday Senator Jones presented the amendments to the tariff bill which have been considered and agreed to by the Democratic senators known as the compromise committee. There are over 400 of them, and it makes a new bill, or a measure greatly differing from the Wilson bill and from the senate bill in any form in which it has been presented. The amendments heretofore presented by Senator Vest and reported from the finance committee are endorsed by the compromise committee. There is a general increase in the bill, and in some schedules the increases are very marked. Senator Harris announced that notwithstanding the consideration of the Chinese treaty had not been finished that he would oppose any more executive sessions, or the passing of any bills during the morning hour until after the tariff bill is disposed of. He also said that he would now press for sessions beginning at 10 o'clock in the morning in order that more speed might be made.

Among the many changes provided for in the amended measure are the following:

The new sugar schedule provides: On and after Jan. 1, 1895, there shall be levied, collected and paid on all sugars not above No. 16 Dutch standard in color, and on all tank bottoms, syrups of cane juice or of beet juice, molasses, concentrated molasses, concrete and concentrated molasses a duty of 40 per centum ad valorem, and upon all sugars above No. 16 Dutch standard in color there shall be levied, collected and paid a duty of ½ cent per pound, in addition to the said duty of 40 per centum ad valorem; and all sugars, tank bottoms, syrups of cane juice or of beet juice, molasses, concentrated molasses, concrete or concentrated molasses which are imported from or are the product of any country which at the time the same are exported therefrom, pays, directly or indirectly, a bounty on the export thereof shall pay a duty of 1-10 of 1 cent per pound in addition to the foregoing rates; provided, that nothing herein contained shall be so construed as to abrogate or in any manner impair or affect the provisions of the treaty of commercial reciprocity concluded between the United States and Hawaii on the 30th day of January, 1873, or the provisions of any act of congress heretofore passed for the execution of the same.

On and after Jan. 1, 1895, there shall be levied, collected and paid on moiseses testing 40 degs., or less by the polariscope and containing more than 20 per cent. of moisture, and on moiseses testing above 40 degs., and not above 50 degs. polariscope, a duty of 2 cents per gallon; if testing above 50 degs. polariscope a duty of 3 cents per gallon.

A portion of the glass schedule is changed so as to read as follows: Green and colored, molded or pressed, and flint and lime glass bottles holding more than one pint, and demijohns and carboys, covered or uncovered, and other molded or pressed green, and colored and flint or lime bottle glassware, not spectrally provided for in this act, ½ of 1 cent per pound.

Green and colored molded and pressed and flint and lime glass bottles, and vials holding not more than ½ of a pint, ½ cent per pound, if holding less than ½ of a pint, 1 cent per pound; above that, and not exceeding 16 by 24 inches square, ½ cent per pound above that, and not exceeding 24 by 32 inches square, 1 cent per pound; above that and not exceeding 24 by 36 inches square, 1½ cents per pound; all above that, 1¾ cents per pound.

Unpolished cylinder, crown and common window glass not exceeding 10 by 16 inches square, 1 cent per pound; above that, and not exceeding 16 by 24 inches square, ½ cent per pound above that, and not exceeding 24 by 32 inches square, 1 cent per pound; above that and not exceeding 24 by 36 inches square, 1½ cents per pound; all above that, 1¾ cents per pound.

Unpolished cylinder, crown and common window glass not exceeding 10 by 16 inches square, 1 cent per pound; above that, and not exceeding 16 by 24 inches square, ½ cent per pound above that, and not exceeding 24 by 32 inches square, 1 cent per pound; above that and not exceeding 24 by 36 inches square, 1½ cents per pound; all above that, 1¾ cents per pound.

Provided, that unpolished cylinder, crown and common window glass, imported in boxes, shall contain 50 square feet, as nearly as sizes will permit, and the duty shall be computed thereon according to the actual weight of the glass.

Plate glass, 24 by 6 inches, 23 cents per square; all plate glass above these dimensions, 38 cents per square foot. Looking glass plates are added to glasses dutiable at 10 per cent. ad valorem in addition to other rates chargeable thereon.

Mrs. Lease for Congress.

TOPEKA, Kan., May 8.—There was talk here of putting Mrs. Lease in nomination for congress-at-large, but the Populist leaders do not want to turn down Congressman Harris. They are willing, however, to give her the nomination in the Seventh district should Jerry Simpson not make the race. Mrs. Lease is very much in earnest.

Hernandez Will Not be Executed.

CITY OF MEXICO, May 8.—The statement recently made that Colonel Neives Hernandez, the Mexican army officer who was accused of being implicated in the Garza revolution, is to suffer the death penalty within the next few days is denied here. Colonel Hernandez was sentenced to death, but President Diaz commuted his sentence to twenty years' imprisonment.

Mrs. Winslow's Soothing Syrup.

GRATZ, Pa., May 8.—The detachment of sepoys and miners who were sent to release the imprisoned tourists from the stalactite cave at Luggeloch succeeded in forcing a narrow passage into the cavern. All the tourists were taken out alive. The survivors are very much exhausted, but the physicians attending them believe that they will recover. The men were rescued after being in the cavern 20 hours.

Imprisoned Tourists Rescued.

GRATZ, Pa., May 8.—The second day of Brooklyn police supervision over Coney Island was marked by a tragedy. In the afternoon a man whom no one seemed to recognize went to the front pier and asked Captain John Nutrow, keeper of the old pier, for permission to fish from the structure. As this was against the rules of the fish company he refused. The stranger became enraged at this and flew at the captain, giving him terrible beating. Shortly afterward Mr. Nutrow was seized with a hemorrhage from the lungs, and before the flow of blood could be stayed he died. His assailant escaped.

Fitzgerald's New on the March.

INDIANAPOLIS, May 8.—General Frye and his army of 200 left Camp Landers on their way to Washington over the national road. The army halted at Cumberland for dinner, and reached Greenfield, twenty miles east, last evening. Before leaving General Frye said that the roasting the local press had given him helped to advertise him, and had put \$300 into his pocket; that he had "worked" the town to its limit, and had a good time. He will reach Washington, he thinks, with \$1,000 in his treasury, a greater portion of which will come from the sale of his books.

The West "Unloading."

FERGUS FALLS, Minn., May 8.—A Coxey organizer who was here with a wing of the army, in an interview, said that \$5,000 was raised in Butte to help take the army which he was organizing from the west to the east. He says that other cities on the coast are raising large sums to send unemployed workmen east. They care nothing about the effect the movement is expected to have upon legislation, but it is a cheap and popular way to return to the east a large army of undesirable citizens.

Fitzgerald's Army.

PLAINFIELD, N. J., May 8.—General Fitzgerald and his industrial army reached this city from Elizabeth last evening, remaining over night. At Elizabeth they were fed and housed by the socialists during their sojourn. The army left for Bordentown this forenoon. On their arrival at Bordentown they will be received by the Consumers' Circle and Nationalists club with a brass band. There will be a mass meeting in that city tonight.

A Rapist Sentenced to Death.

ANNAPOLIS, Md., May 8.—James Allen, colored, who was convicted last Thursday of a felonious assault on a little white girl 14 years old, was sentenced yesterday afternoon by Judge Roberts to be hanged at such time as the governor shall appoint. The offense was committed in Prince George's county last February.

The Grip.

An experience with this disease during all its past epidemics warrants the bold claim that Dr. King's New Discovery will positively cure each and every case if taken in time, and patient takes the ordinary care to avoid exposure. Another thing has been proven, that those who have used Dr. King's New Discovery, escape the many troublesome after results of this disease. By all means get a bottle. It is guaranteed, and money will be refunded if no good results follow its use. Sold by McMonagle & Rogers.

It May Do As Much for You.

Mr. Fred Miller, of Irving, Ill., writes that he had a severe Kidney trouble for many years, with severe pains in his back and also that his bladder was affected. He tried many to call kidney cures but without any good result. About a year ago he began use of Electric Bitters and gave tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children treatment is pleasant to the taste and the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

For Over Fifty Years.

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething. If disturbed at night and broken by your rest by a sick child suffering and crying with pain of Cutting Teeth send at once and get a bottle of "Mrs. Winslow's Soothing Syrup" for Children Teething. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake in it. It cures Diarrhoea, regulates the Stomach and Bowels, cures Wind Colic, softens the Gums and reduces Inflammation and gives tone and energy to the whole system. "Mrs. Winslow's Soothing Syrup" for children treatment is pleasant to the taste and the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

Appeal for the Starving.

SAN ANTONIO, Tex., May 8.—Another appeal to the world for assistance has been received here from the suffering people of Zapata county. The appeal states the starving people have become so desperate that a band of twenty of them made a raid upon a general store the other day for food supplies. The raid was stopped by the temporary wants being supplied. The drought in that county has lasted for four years.

NEW YORK AND JERSEY BRIDGE.

Another Bill for Its Construction Passed by the House.

WASHINGTON, May 8.—During the executive session yesterday Senator Jones presented the amendments to the tariff bill which have been considered and agreed to by the Democratic senators known as the compromise committee. NEW JERSEY LEGISLATURE.

A Bill to Wipe Out the American Protective Association.

TRENTON, May 8.—Mr. Clarke, of Essex, introduced in the house last night a bill against the American Protective association. It provides that if any person shall combine, unite, confederate, conspire or bind himself by oath, covenant, agreement or alliance with another or others to discriminate against a member or members of any religious sect in the giving of employment, in the exercise of his suffrage, or in business or commerce, he shall be guilty of conspiracy, and shall be fined \$1,000 or imprisoned for one year, or both.

A bill was introduced in the senate by Senator Stokes giving the Pennsylvania and New Jersey Railroad company the right to construct a drawbridge over the Delaware river from Pensauken creek to Frankfort creek, Philadelphia. A substitute was introduced to the bill reorganizing the judiciary of the state, which changes three of the districts as follows: Morris is placed with Bergen, Hunterdon with Somerset, and Warren with Sussex. The other six districts remain the same, except that only one judge is allowed for first class counties. The salaries range from \$7,000 in first class counties to \$4,600 in districts of the smallest population. A bill was introduced by Senator Rogers, which makes the number of members of the assembly the same under the election by counties as at present, except that one more member is given to Camden county and one is taken from Hunterdon.

The governor sent to the house three vetoes last night. The first was of the bill which legislates out of office John J. Matthews, superintendent of the school census, and at whose office. Another bill vetoed provides for the setting off of a portion of Woodbridge and Raritan townships, Middlesex county, to Union county. He also vetoes the bill which provides for the increase of the appropriation of the sum of \$125,000 for the construction of roads.

The senate passed the bill over the governor's veto, which provides for the election of city officials in second class cities by common council.

Burglars Wreck a Store.

LTTSN, Mass., May 8.—Shortly before 3 o'clock in the morning a loud explosion awakened occupants of houses in the vicinity of Oxford street. The explosion was in the grain and commission store of Torrence & Co. When the fire department arrived the store was filled with smoke, and a brick fire was burning. The blaze was extinguished and it was found that the interior of the store had been badly wrecked, the explosion being caused by an attempt by burglars to blow open the safe. On the floor was a complete kit of burglar tools, a can of gunpowder and some fuse. The burglars were evidently frightened away by the force of the explosion, for they did not stop to secure any plunder. Patrick Lee and David Meara are under arrest on suspicion.

Coxey and His Lieutenants.

COXEY CHARGED WITH ABDUCTION.

His Divorced Wife Declares That She Will Prosecute Him for Inducing Her Child to Run Away and Parade as the "Godess of Peace."

WASHINGTON, May 8.—The trial of the Commonwealers, which has dragged along in the police court for three days, will be concluded today. Coxey's explanation of his plan for redeeming the government was the principal feature of yesterday's proceedings, apart from the speeches by the lawyers. It is apparent that the case is being tested on the broad grounds of justification for Coxey's movement. The defense wanted to show that all the trouble was caused by the police, and said they had a dozen members of congress to testify to that effect. Finally the member of congress was allowed to tell that the police had driven women, children and men over the grass in their charges.

The governor sent to the house three vetoes last night. The first was of the bill which legislates out of office John J. Matthews, superintendent of the school census, and at whose office. Coxey as a Kidnaper.

MASSEILLON, O., May 8.—The prospects of arrest on the criminal charge of abduction await Messrs. Coxey and Browne when Judge Miller, of Washington, is done with them. This trouble is in consequence of the appearance of the "Angel of Peace" in Coxey's May Day parade. The "angel" was Miss Mamie Coxey, who is still in Washington, and who got there without her mother's knowledge or consent. The mother, Mrs. Caroline Coxey, is the divorced wife of the general, and she was made legal custodian of the girl. Young Jesse Coxey succeeded in getting his sister to run away with him. Mrs. Coxey declares she will prosecute her ex-husband and Browne.

General Frye Resumes His March.

INDIANAPOLIS, May 8.—General Frye and his army of 200 left Camp Landers on their way to Washington over the national road. Open Air Concerts and an Entertainment for the Band-Narrow Escape from Browning—Arbor Day—The Driving Park.

Correspondence Above and Below.
—The Killsworth Mills Band, which have given open air concerts in this village for several years, free of charge, will give their popular concerts during the summer season. An entertainment will be given by them in Academy Hall, Tuesday evening, May 15th. The proceeds are to be used to repair the band stand and make it fit for occupancy. I am sure a large audience will attend the entertainment and help the boys along. Miss Benjamin and Armstrong, of Middlestown, and the best local talent will help to make the affair attractive.

John H. Hewitt is having a new stoop placed in front of his residence on Clinton street. G. J. Kidd, Sr., is the workman.

THE PRESIDENT COMING TO MIDDLETON.

The sick may receive medical services free of charge.

The President and members of the European and American Staff of German, English, Irish, Scandinavian and American Doctors of New York city will be at the Russell House, Middleton, on Tuesday, May 8th. The sick and afflicted may consult them without charge during their stay. If you are incurable they will tell you; therefore if not it must not take offence if they are rejected, as no case will be accepted unless there is a moral certainty of a cure being effected. These Doctors are graduates of the best universities of Europe and America; they are of the highest standing in the medical profession and have had unlimited experience in the treatment of all Chronic Diseases and Deformities. As the latest methods, instruments and appliances of the various schools of both the Old and the New World are familiar to and at the command of this staff of doctors, it is reasonable to believe that in ninety cases out of every hundred a cure can be effected, even when the patients have been given up as incurable by doctors who have had less experience. Do not be discouraged because your doctor cannot give you relief, or even if he tells you that you cannot get well, for it matters not what your disease may be, you can consult the doctors free, and, if curable, they will treat you; if incurable, they will give you such advice as will tend to prolong life and afford you the greatest relief.

The tariff bill, as revised by the Senate Finance Committee, makes many changes in the glassware schedule. The duties on bottles, such as are made at the Middletown glass factory, are considerably increased, the new rates being five-eighths of a cent a pound on bottles holding a pint or over and on demijohns and carboys; on bottles and vials holding less than a pint and not less than a quarter of a pint three-fourths of a cent a pound, and on those holding less than a quarter of a pint, thirty-five cents per gross.

The Louisville Courier-Journal opposes the re-nomination of Breckinridge on the ground that despite his ability and the great services he has rendered his party, the scandal in which he has been involved has so darkened his name that the Democratic party cannot afford to accept his services at the price it will be forced to pay. Pharmaceutical journals are lifting up their hands in assumed horror at the Courier-Journal's utterance, and are protesting that the re-election of Breckinridge would not be a greater harm to public morals than his defeat if the campaign against him is made on the low ground of party expediency.

Hugh O'Donnell, the leader of the Homestead strike, who as a newspaper correspondent accompanied Coxey's army from Massillon to Washington, sums up his impression of the Commonwealth army in the following plain and vigorous words:

"I have only two sentiments, pity for the poor deluded devils who have been induced to join it, and contempt for Brown and Coxey, the two men who have led them into the folly, for it is the greatest piece of folly ever perpetrated in this country. It is a fool's errand to expect Congress to be induced in this way, and the men who are leading the movement are neither of them sincere. Coxey is a horse jockey and Brown is a mountebank of the worst description. Coxey is not the sort of a man to lead in any movement. Any plan that Coxey would be mixed up in would mean Coxey first and everyone else afterward. All that Coxey stands for is Coxey and that Brown stands for is Brown. The men under them stand for nothing. It is altogether a hopeless, helpless, pitiful crew, with the chief of fake and bombast for a leader. That the movement in any way represents the sentiment of the laboring classes of the country is utter nonsense. There is no man in the country who has the good of the workers more at heart than I have, and I have made it my business to go into shops all along the route on the march to Washington and see what the workingmen really thought on the subject. Without exception they ridicule it, and I did not find a single respectable workman who would have thought for an instant of leaving his place, however poor it might have been, to join in such a demonstration."

THE LIQUOR DEALERS' BANQUET.
A good spread and much speech making.

The annual banquet of the Liquor Dealers' Association was held at their rooms on North street, at 3:30 p. m. yesterday, about thirty persons being present. There was an elegant spread, and post-prandial speeches were made by the following gentlemen:

Prahlert W. J. McIlvaine, Messrs. William Eligham, James McWhirter, John Thorne, C. H. Smith, H. F. Haught, William Stoeck, J. F. Bennett, A. P. M. J. Young, Lambert Wedgwood, F. J. Nease, Victor Murphy, and Messrs. Miller, Scott and Gottschall, members of the Executive Board.

A FREAK OF NATURE:
You will be interested to learn of the following:

Mr. F. M. Morris of Brooklyn, New York, has a very large and very ugly protuberance on his right knee, which is about the size of a man's fist. When he sits down to eat, they are all perfectly formed, they are all joined together in the hand shape. The fat is all the spotted and the pointed part is perfectly alive. Two years ago the same one produced a similar freak of nature, only then they were but fat. Mr. Morris drowned them when a few days old. Taking the old out he got another and Mr. Morris is going to let it grow up to adulthood and see what it will do. They sit now between two and three weeks old and they form a very ugly crowd. When put upon the ground they give utterance to short objections to their crowded condition in a very forcible manner. Every leg is in motion as they try to get out, and every mouth is open while from the five throats come a variety of unutterable sounds expressive of displeasure.

A BURGLAR SHOT.

Mired Upon by Guards in White Hobbing Riverview Academy in Poughkeepsie by United Press.

POUGHKEEPSIE, May 8.—A burglar broke into Riverview Military Academy this morning, stealing watches and everything of value he could find. Two cadets fired four shots at the burglar and two bullets entered his body. The burglar managed to reach the New York Central station, where he was arrested. He gave the name of Charles Davidson, and said he was a sailor, recently of the Steamship Campaign. He said he came to Poughkeepsie to look for work and was starving. The cadets have not been arrested.

FOUND IN A HEARSE.

The Mystery of a Norfolk Man's Disappearance Explained.
From the Norfolk Sun.

William Jones (White), who disappeared early on Friday morning from the livery stable of Elihu Black, has been found. The discovery of his living remains was made about 3 o'clock, Sunday evening, by DeWitt Osborne, an employee in the stable. Mr. Osborne had been bothered all day by an unusual sound and finally concluded to investigate the matter. The horse owned by Mr. Black had been last used on Friday morning. Upon its return it was placed in the usual position. Mr. Osborne in his investigations passed by all the vehicles, but when he came near the hearse he almost started away. He heard a kicking at the rear door and his first impression was that a corpse had come to life. He summoned up courage enough, however, to open the doors, and to his surprise there lay William Jones with his feet on a horse's bladder. As Williams had been in the hearse since Saturday, he was in an almost unconscious condition. Dr. Flanders was called and described him to be in a very bad condition with liquor. After investigation Mr. Jones was told he recovered that he was taken to his home.

The Boning Contest. To-night—Secretary to Mr. Harrison—A Novel Entertainment.

From our regular correspondent.

The Warwick Warriors and the Goshen Gladiators will meet, to-night, to see who can do the most in crashing with the fewest balls on the Goshen alleys. Capt. Howell has his men in fine fettle for the contest. The following gentlemen will make up the Quebec team: Dr. Ward, J. Lundy, M. Howell, Theo. Gould, H. Goodale, J. Homer.

Frank Millspaugh has taken the position of Private Secretary to Mr. H. H. Morrison.

Don't forget that Hunting's circus will be here, to-morrow.

There will be a cake walk and a novel eating contest, clog dancing, singing, etc., at the entertainment at Purdy's Hall, Thursday evening.

No Longer "Sockless."

It has been pretty thoroughly established that Mr. Jerry Simpson, of Kansas, is not sockless, at least that he is not sockless at the present time. He is a rather well dressed gentleman, of decided force of character, who has not provoked in Congress the disregard which many expected. He was at least successful in a fierce political campaign and the degree of success which awaits him in the future can but be guessed at. He is a picturesque personality. A recent portrait of him appears in "America's Greatest Men and Women," together with a short story of his life. He appears, as does every other man or woman living, to-day, who is prominent in the affairs of the country. "America's Greatest Men and Women" is the most remarkable work of its kind ever produced, and one which promises to be of the greatest value and convenience to any class of readers. It is a work easily procured and which no one can afford to be without.

In every issue of *Arts* or *MacCoy* will appear a numbered coupon. Cut this out and forward it, together with ten cents to this office, and there will be delivered to you one number of the series. The remaining parts can be obtained as issued, one number each week, by readers of the *Arts* or *MacCoy* under the same conditions.

A RETIRED BUSINESS WOMAN.

A Page From Her History.

The importunities of others are bad enough. The following is no exception. It is in trouble with house debts. It is in debt at that time very heavily. For this it is frightened by one particular consequence, which it would not care to tell its friends that it could not live a month. My friends and I were deeply worried and I was asked in a serious conference what we could do to extricate him from his difficulties. And so I said, "Well, if you will let me have \$1000, I will get him out of his trouble." So I did, and he did not want to go. Late within the prison walls was for him preferable to being turned adrift in a cold world.

The warden told Nero he was sorry for him, but his time was up, and he would be required to leave the home to which he had become so attached in so short a time.

Then Nero adopted new tactics. He raised the point that he did not have to accept the month's release on his sentence for good behavior unless he pleased to. He did not desire to accept it, and therefore could not be put out until the expiration of the full 12 months.

This raised an entirely new question, and Deputy Warden Gaddy was dispatched to lay the case before Governor McConnell. The governor instructed Warden Campbell to allow Nero to remain until the return of the attorney general. The governor said if it should be shown such action was wrong he would pay for Nero's board out of his own pocket.—*Evening Statesman.*

A HERO'S MONUMENT.

One of the terrible incidents of the Civil War Recalled.

G. W. Humphrey of Shelby county, Mo., has just ordered a monument to be placed over the grave of Abram Smith at Palmyra. Mr. Smith was a victim of the McNeil butchery, which occurred at Palmyra during the war, and which was one of the most brutal affairs known in history.

One of General McNeil's men was missing, as the story goes, and he believed that he had been foully dealt with. McNeil announced that if the missing man was not turned up by a certain time he would select a number of citizens from the community and put them to death.

People looked upon it as an idle threat, but the time came, and McNeil did as he said he would do. Humphrey's father was one of the men selected and would have been murdered with the rest had not his friend, Hiram Smith, volunteered to take his place in the doomed column and die in his stead. Humphrey was a married man, and Smith was single, and on this account permitted himself to be shot so that his friend might be spared to his family. The children of Mr. Humphrey have long intended to erect a monument over the grave of the young hero who died to spare their father, but the matter has been put off until now.—*Quincy (Ill.) City St. Louis Republic.*

Mailed the Box.

People who passed St. Paul's cathedral one evening last week may have fancied that the clock did not strike 8. It, however, did strike, and its soundless note says *The Daily News*, due to a powerfully conspiring, of which certain music lovers who shall be nameless may perhaps not unreasonably be suspected.

Bach's "Passion," according to St. Matthew, was being performed in the cathedral before an enormous congregation, and, as every body well attends such ceremonies as are, a church clock has the awkward habit of striking at very inconvenient moments, often entirely spoiling the effect of quiet passages. So certain young men mounted the bell tower and took the liberty of tying a kneeling cushion to the bell hammer, which thus fell without noise.

Immediately after 8 o'clock the cushion was brought down again, and the clock struck 8 as usual.—*Pall Mall Budget.*

Dear Alexander's Dispensary.

Russia needs peace in order to develop her internal affairs. She entered into relations with France not in order to make war on Germany, but to form a counterpoise to the triple alliance and protect France from embarking on a policy of adventure which might have dragged Russia against her will into war. Now that Russia is sure of the pacific intentions of France she is binding Germany to her by ties of interest. Thus she holds in her hands the policy of two great nations which for nearly a quarter of a century have maintained a hostile attitude. If it is Alexander III who personally directs the foreign policy of his empire, it must be admitted that he is endowed with admirable diplomatic resources, for the game has been played so quietly and so surely as to be worthy the eulogium of future historians.—*Paris Herald.*

Physician is unremunerated and not permitted by any law or regulation to practice in this matter as a physician, and thus, not subject to a probable criminalization of the affair.

Good Friday In Spain.

A curious local Friday custom still prevails in Spain. On that day the Spanish soldiers practice a certain number of crucifixions, condemned to death, and try to get the man to repeat a sentence of confession and a final blessing with one hand. WANTS TO REMAIN IN JAIL.

A Prisoner in the Idaho Penitentiary Raises a New Legal Question.

Now people prefer prison life to the freedom enjoyed by persons who have never been compelled to don the striped garb, but such a one is Narciso Nero, an Italian who for the past 11 months has been incarcerated in the penitentiary for a burglary committed in Kootenai county. Nero has been an exemplary prisoner, and although his sentence was for one year his good behavior under the rules of the institution, earned him one month's commutation. The 11 months expired the other day, and Warden Campbell informed him he was at liberty to depart.

Nero said he did not want to go. Life within the prison walls was for him preferable to being turned adrift in a cold world.

The warden told Nero he was sorry for him, but his time was up, and he would be required to leave the home to which he had become so attached in so short a time.
